

## Have a Great Labor Day Weekend

**The abolishment of the 1 in 30 rule has changed the shopping dynamic.** Immediate gratification is only 10 days away! Instead of distributing one firearm every 30 days you can pick out what you want, as many as you want and take them home 10 days later.

This all changed August 15th when AG Bonta got smashed by a unanimous 9th Circuit Court decision. It has been decades since you could buy more than one handgun in a month. How long will the State of California permit this luxury?

The Excise tax is in full swing and the pound of flesh the State will extract from you on firearms and ammunition is now 18.75%. A lawsuit is in place but it may be a while before any results are realized.

Meanwhile, this coming Fall the City of San Diego will be asking for another 1% in sales tax on everything. Will they ever stop asking for more? **Going from 7.75% to 8.75% is a 13% increase in the tax rate! It is time to say no! This vote is for residents of the City of San Diego. This is a 13% increase. Remember that when you discuss this with your neighbors! Don't allow them to say its just another penny for every dollar. Put it in context.**

To celebrate the end of 1 in 30, Southern California Gun will be offering a **Multi-gun Labor Day sale** that will continue to the end of September.
