CALIFORNIA GUN LAWS APRIL UPDATE

3 IN 30

Flashback - June 2025 - Federal Judge strikes down California law restricting purchases of firearms and firearm enthusiast rejoiced. However, the State of California and the "elected" politicians were insulted. They immediately got out their crayons and wrote a new law. Obviously, one gun a month was too restrictive but three is sure to be "just right". Beginning April 1st, individuals are limited to three firearms every 30 days courtesy of your elected representatives.

Rhode v Bonta (Ammunition)

On March 26, 2026 the Ninth Circuit En Banc review got underway with oral arguments being presented. If you recall, July of 2025, the three panel review delivered an unsatisfactory judgement, from the state's point of view, which was immediately appealed. This time the state has the panel stacked with their lackeys so don't get your hopes up on the impending decision.
