ATF GETS AN OVERHAUL!

ROB CEKADA CONFIRMED NEW ATF DIRECTOR

APRIL 30, 2026

NEW ERA OF REFORM

The ATF will be shifting focus away from minor compliance errors and reversing "zero tolerance" policies. This means your local gunstore is no longer under imminent threat of closure for any and every infraction. The ATF will now concentrate on willful violators and criminals.

Big changes may be in store for the gun community in the future. The wishlist for California should include the following:

- 3 firearms in 30 days
- Handgun roster
- Ammunition Background Checks
- Restrictions on AR rifles
- Restriction on Silencers
- Excise tax
- Magazine Capacity
- CCW licensing requirements

Under the 2nd Amendment of the Constitution, the right to keep and bear arms shall not be infringed. All of the above items represent an infringement of your constitutional right. April 30th was a good day and will

hopefully lead to many more down the road.
